A range of Ute bodies is available to fit onto the base cab chassis, providing a full Ute flat bed plus glass carrying racks outside the wheels on both the drivers and passengers side. This design suits dedicated glass carriers, and those requiring large glass volumes and sheet sizes.

A range of A frame racks is available to fit onto the pickup flat bed. This design suits multi-purpose glass carriers, and those requiring the benefits of a manufacturers bed. The A frame glass racks can be built to have storage unit within the A frame, and the A frame can be easily removed

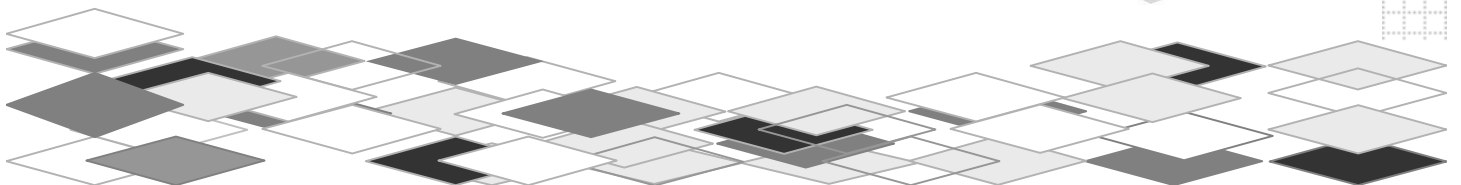

UTE GLASS RACK OPTIONS

- Length and height of the racks can be configured to suit the needs of the user
- Fuel fillers are moved for easy access even when the racks are loaded
- Rear tailgate for safety of deck mounted hardware and tools
- Removeable module allows access to wheels
- With the Ute bodies, 500mm height extension is standard on one side, and optional on the other side.
- Standard lights can be replaced with LED lights for easier installation and maintenance
- A range of fitout options is available for both the body and bed options to ensure that the end solutions meets your specific needs
- Quality signage and branding is available at the time of manufacture.

UTE BODY AND A FRAME KEY FEATURES

On the Ute body, strength and weight carrying is maximized by T6 aluminium extrusions for main rack construction, supported by galvanized steel sub-frame and top and bottom rack brackets. The A frame is all aluminium for strength and reduced weight

Significant volume carrying by maximising external ledge width and rack dimensions

Quick loading and unloading using non-marking rubber polymer load retention blocks and scissor clamps

Safety for users and other road users

Ease of repair and maintenance due to the glass racks having high tensile mono-bolted construction. Damaged or worn parts are easily removed, replaced or upgraded. The Glass Racking Company has service companies in Perth

Longevity is provided through low maintenance materials

Proven product
