- External racks extendable to 500 mm
- Internal racks approximately 2.7 m long X 1.2 m tall
- Storage box approximately 1.7 m long X 2.0 m wide X 1.8 m tall
- 3.5 m truck external racks approximately 3.5 m long X 2.2 m tall
- External rack extendable to &nbsp;500 mm
- Internal racks approximately 2.2 m long X 1.2 m tall
- Storage box approximately 1.2 m long X 2.0 m wide X 1.35 m tall

## Options

- Height extension on external racks
- Tow bar integration 3.5 T with LT400 Certification
- Storage box internal fitout options
- Signage installation
- Rear opening storage box door option
- Roof bars and long-load storage
- Custom box and rack sizing per chassis

## Key Features

### Full Glass Transport System

External and internal racks carry both large glass sheets and smaller units safely on a single vehicle.

### Secure Strap-Pole Retention

Metalcraft poles with non-marking blocks hold loads firmly and protect glass from impact and abrasion.

### Storage & Work Capability On-Board

Shelving, benches, safety gear compartments, and optional vice support make efficient onsite installation possible.

### Truck-Chassis Durability

Heavy-duty cab-chassis platform delivers long-life performance for demanding glazing environments.
