

# Product Specifications

## Transport Grips

## Product Summary

Ergonomic transport grips designed to safely lift and carry glass panels and window units, reducing strain and improving handling safety on-site and in factories.

## Specifications

- Designed for lifting glass, DGUs, windows and flat panels
- Grip range approximately 1 mm to 80 mm in thickness
- Rated to approximately 100 kg lift per unit
- Supplied as a pair
- Ergonomic handles for controlled movement
- Keeps the operator clear of the panel edge for safety
- Helps maintain a straight back and set lift height
- Suitable for factory and on-site handling

## Options

- Replacement cam and rubber bearing components
- Colour coding for team or workflow allocation
- Signage and or branding options

## Key Features

### **Self-Tightening Cam Grip**

Cam and rubber bearer system grips tighter under load for secure lifting.

### **Protects Double-Glazed Units**

Parallel cam design squeezes DGUs on the spacer bar, reducing edge damage.

### **Ergonomic & Safe Handling**

Allows upright posture, keeps operators clear of glass and reduces fatigue.

### **Versatile Panel Capacity**

Handles a wide thickness range from approximately 1 mm to 80 mm.
