

# Product Specifications

## External Van Frails

## Product Summary

Lightweight, ultra-strong van frails for safe, high-capacity glass transport, built for modern vehicles and full accessibility.

## Specifications

- Long service life- Strong sections and durable finishes ensure a frail that will last for many years. Spare parts available.
- Proprietary T6 Aluminium extrusions, galvanised steel support brackets, along with high tensile rivets and fasteners are used throughout. Our frails are built strong
- Poles with sliding, self-tightening polymer retaining blocks secure glass panels in transit, eliminating movement and increasing load capacity.
- Pole height extends an extra 500mm in 100mm increments to carry those larger panels
- Fits most models, e.g. Transporter, Transit Custom, Toyota Hiace, LDV etc.
- 4 Heavy-duty roof bars included
- Non-marking polymer-clad contact surfaces and support ledges provide cushioned protection, preventing glass damage during transport.

## Options

- Gutter-mount and Euro-mount hardware;
- High roof model options available
- Euro-style mounting options
- Height extensions in 5 mm increments up to 500 mm
- Passenger-side shortened frails
- Scissor clamps are available for clamping stacks of glass with varied heights
- Driver-side or double-sided systems with access to passenger side sliding doors and a step-through system (subject to van model)

## Key Features

### Smart Load Retention System

Sliding, self-tightening polymer blocks secure panels as you drive, eliminating movement

### Adjustable Height for Larger Panels

Extend the frail up to 500 mm higher, in 100 mm increments, so you can transport oversized units when required.

### Lightweight Strength, Built to Last

T6 aluminium extrusions, galvanised steel brackets, and high-tensile fasteners for maximum strength, long service life, and minimal impact on payload.

### Safety & Accessibility by Design

Four-bar roof mounting and full-length rails spread the load safely across the van, while step-through access and sliding-door clearance keep loading fast and safe.
