

# Product Specifications

## Stoche Packlifter

## Product Summary

Engineer-certified packlifters are designed to suit Stoche glass pack dimensions, with breakdown capability for shipping and full non-marking protection of pack edges and surfaces.

## Specifications

- Explicitly designed for Stoche glass pack dimensions
- Breakdown frame for export and space-efficient storage
- Engineer-certified load rating for specified pack size
- Plastic-coated feet to support the glass pack
- Plastic-coated retention arms secure the load to the frame
- Handles positioned at both ends for manoeuvrability
- Painted finish in custom colour options
- Designed and fabricated in Australasia

## Options

- Configurations to suit multiple Stoche pack heights
- Additional safety retention arms for load stabilisation
- Extended polymer protection upgrades
- Flat-pack configuration for reduced freight costs
- Branded colour schemes for factory workflow visibility

## Key Features

### Custom-Sized for Stoche Packs

Designed to match Stoche glass pack dimensions for secure lifting without overhang or movement.

### Breakdown Design for Export

Modular structure packs flat to reduce transport costs and simplify international delivery.

### Non-Marking Load Contact

Plastic-coated feet and arms protect the edges and faces of glass packs from abrasion.

### Crane & Manual Positioning

Top lifting eye and end handles provide safe handling from the container to the storage rack.
