

# Product Specifications

## Scissor Clamps

## Product Summary

Secondary clamp attachment provides extended reach and secure glass retention when stacked loads vary in height.

## Specifications

- Function: Secondary clamp above main retaining blocks
- Adjustment: Sliding extension nosepiece for variable reach
- Contact surface: Non-marking polymer insert
- Material: Yellow reinforced plastic
- Fasteners: Stainless-steel bolts
- Compatibility: Fits standard pole-based rack systems

## Options

- Replacement non-marking inserts
- Custom polymer hardness on request

## Key Features

### Improved Load Retention

Supports the rear glass panels when shorter units are stacked in front, reducing shift during transit.

### Adjustable Reach Mechanism

Sliding design allows the nosepiece to be positioned close to or away from the pole for optimal load support.

### Surface Protection

Non-marking polymer contact pad on the nosepiece protects glass edges and coatings.

### Built for Harsh Environments

Yellow high-visibility plastic body with stainless bolts for durability and long-term outdoor performance.
