

# Product Specifications

## Window & Door Lifting

## Product Summary

The Carrymate Portman Door and Panel Lifter provides a safe, efficient solution for positioning and installing heavy doors, panels, and partitions. Built from robust alloy steel, it features a foot-operated mechanism that leaves both hands free for alignment and fixing. The integrated tilt-compensating lever keeps loads stable, while smooth lifting and swivelling motion allows precise, jerk-free handling. Available in two models - the XL (up to 120 kg) and XXL (up to 200 kg) the Portman lifter is ideal for joiners, glaziers, drywall installers, and furniture fitters who demand accuracy, safety, and durability on the job.

## Specifications

- Available Models: Portman XL and Portman XXL
- Maximum Load (XL): 120 kg
- Maximum Load (XXL): 200 kg
- Material: Alloy steel
- XL Dimensions: Length 355 mm X Width 95 mm X Height 95 mm X Weight 810 g
- XXL Dimensions: Length 355 mm X Width 95 mm X Height 100 mm X Weight 1.1 kg

- Portman XL: Supports loads up to 120 kg for standard doors, panels, and partitions.
- Portman XXL: Supports loads up to 200 kg for heavy or oversized materials.
- Replacement parts and service kits available on request.

## Key Features

### Hands-Free Foot Operation

Pedal-style control allows the user to lift, lower, and position materials while keeping both hands free for alignment and fastening.

### Smooth Lifting and Swivelling

The lifter enables controlled, jerk-free vertical and rotational movement, ensuring accuracy and safety during installation.

### Integrated Tilt Compensation

A built-in compensating lever automatically maintains load balance, preventing panels or doors from tipping toward the user.

### Heavy-Duty Alloy Steel Construction

Manufactured from durable alloy steel for long service life, stability, and consistent performance across demanding site conditions.
