

# Product Specifications

## Cut Length Tree Trolley

## Product Summary

Horizontal tree trolleys for efficient factory storage and movement of aluminium window extrusion cut lengths, with non-marking polymer support and multi-layer organisation.

## Specifications

### Standard Cut Length Tree Trolley

- Approx. 1900 mm long X 900 mm wide X 1800 mm high
- Three vertical posts, six levels, two arms per level
- Grey non-marking polymer bearer surfaces
- Slightly angled arms improve retention
- Painted or pre-galvanised welded frame with end caps
- Two fixed castors + two turning castors
- Designed for storing aluminium window extrusion cut lengths

### XL Tree Trolley

- Approx. 4500 mm long X 900 mm wide X 1800 mm high
- Four vertical posts for full-length aluminium extrusion storage
- Same bearing, arm and castor specification as standard size

## Options

- Braked swivel castors
- Custom lengths and post configurations to suit extrusion systems
- Polymer colour options for workflow or batch identification
- Branding and signage integration

## Key Features

### Multi-Layer Storage Efficiency

Six storage levels with dual arms allow organised job lot handling and reduced floor space usage.

### Non-Marking Polymer Support

Polymer bearers protect aluminium surfaces and help swarf roll clear to prevent scratching.

### Smooth Material Flow

Heavy-duty castors provide reliable mobility for factory production processes.

### Long Service Life

Hot-dip galvanised mild-steel frame with optional end caps protects against wear and corrosion.
